

Summer School on Probabilistic Programming

Implementing Inference

Algorithms for

Probabilistic Programs

Hongseok Yang
KAIST

Two approaches

- Translation to a known probabilistic model.
- Inference by evaluation.

Two approaches

- Translation to a known probabilistic model.
- Inference by evaluation.

Inference by evaluation

View an inference algorithm for prob. programs
as a non-standard interpreter.

Plan

- Online whiteboard lecture.
- Look at my handwritten notes, and the pdf file, “Note6.pdf”.
